

VIRGINIA LICENSE OR ARREST, ORDER FOR CAR OWNERS

Alexandria County Officials Determined to Enforce Law Against Visitors.

Authorities of Alexandria county, Va., have announced that District automobilists who drive through the county without having procured a Virginia license are to be arrested and fined.

Heretofore, motorists from the District have been permitted to drive their cars in the county unmolested, no attempt having been made to enforce the State license law. The authorities have commenced warning motorists, their attitude being not to commence a vigorous enforcement of the law until District automobilists have had a fair opportunity to procure licenses.

Within the next week or so, however, officers will be stationed at the south end of the Aqueduct, Highway, and Chain bridges, and drivers of machines crossing over into Virginia will be arrested unless they have the necessary license, or can prove to the satisfaction of the authorities that it is the first time they have been in the State during the year.

Under the law, a motorist with a license from another jurisdiction is permitted to drive into Virginia once a year and remain seven days without procuring a Virginia license, but entering and leaving the State is construed as having used up the seven-day privilege, although the automobilist may have remained in the State only an hour or so.

For some time the county authorities have been taking numbers of District machines entering the county. The object of this is to have proof that certain motorists who make a practice of driving through Alexandria county regularly have actually been in the State, should they put up the claim, when arrested, that it is their first visit within the year.

The Virginia tax ranges from \$5 to \$10 a year, according to the horsepower of the machine.

ALICE BROWN WINS AMES DRAMA PRIZE

BOSTON, June 1.—Miss Alice Brown, the New England writer and poetess, has just been notified at her home in this city that she has won the Winthrop Ames prize of \$1000, with her play "Children of the Earth." Miss Brown is fifty-seven years old and her summer home is in Newburyport.

Her play was submitted with 1,048 other manuscripts in the contest inaugurated by Winthrop Ames, of the New Theater in New York, for the purpose of awakening interest in the plays of American dramatists. The judges of the contest were Augustus Thomas, Adolph Klauber and Winthrop Ames.

Miss Brown is the author of several New England novels and stories and has written several one-act plays. She was born of farmer folk in Hampton Falls, N. H., and her first fourteen years were spent in that neighborhood. She then went to a girls' seminary at Exeter, N. H., taught for a little while, and left teaching to write. Her first book "Meadow Grass," a collection of short stories, brought her immediate recognition. Since then she has published a volume of poems, a book of essays on travel, a large number of short stories and several novels, the best known of which are "The Story of Thyra" and "Rose MacLeod."

FIRE SCARE DRIVES SEVERAL FROM BEDS

Eleventh Street Tailor Shop Blaze Causes Early Morning Excitement.

Persons living on the upper floors of the building at 1246 Eleventh street northwest, were driven to the street in scanty attire shortly before 1 o'clock this morning, when fire was discovered in the tailor shop of Simon Beloff, on the first floor. Smoke filled the corridors of the upper floors.

The fire caused much excitement in the neighborhood. The blaze was confined to the tailor shop, which was damaged \$750.

Smoke coming from the building at 205 Pennsylvania avenue northwest, caused a pedestrian to sound an alarm from a nearby box. Sing Sing's fire would not draw and filled the entire building with smoke.

A fire shortly after 9 o'clock last night did \$500 damage to the home of George R. Carlisle, 445 I street northwest. Two frame dwellings and one frame building used as a drug store by M. E. Slattery, in Dix street, between Sixty-first and Sixty-second streets northeast, were destroyed by fire shortly before last midnight. The loss is estimated at between \$5,000 and \$6,000.

The fire is supposed to have been caused by crossed electric wires in the drug store. Slattery said the damage to the building and stock was \$2,000.

The two houses which were burned down and most of the contents destroyed were occupied by Daniel Jones and G. H. Stevens. There are no hydrants in the vicinity and it was necessary to pump water from a small stream several hundred yards away.

DELAY DECISION IN FREIGHT RATE CASE

Brandeis Announces Inquiry in C., H., and D. Railroad Merger Is Postponed.

Further delay in the decision of the Interstate Commerce Commission's pending advance freight rate cases was indicated today in announcement that the inquiry into the taking over of the Cincinnati, Hamilton and Dayton by the Baltimore and Ohio had been indefinitely postponed.

Louis D. Brandeis, counsel in charge of the investigation, said the investigation had been postponed "to permit time for study of the case," and that there was no telling when it would be resumed.

He asserted that President Willard of the Baltimore and Ohio, will take the stand again, and other witnesses will be called to show that if the Baltimore and Ohio were not burdened with the Cincinnati, Hamilton and Dayton it would not be in need of increased revenues, as it claims.

SULPHUR IS THE ONLY THING FOR ITCHING ECZEMA

Use like cold cream to subdue irritation and clear the skin.

In the treatment of the various forms of disfiguring, itching and burning Eczema such as Acne, Ringworm, Salt Rheum, there is nothing known that can take the place of bold-sulphur cream.

It effects such prompt relief, even to the aggravated Eczema, that it is a never-ending source of amazement to physicians. For years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties. Bold-sulphur is not only parasiticide but antipruritic and antiseptic, therefore invaluable in overcoming irritation and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance it instantly stops the agonizing itching, subdues the irritation and heals the inflamed, raw skin right up and it is often years later before any Eczema eruption again appears.

Those troubled should obtain from any good pharmacist an ounce of bold sulphur cream and apply it directly upon the abrasion like an ordinary cold cream. It isn't unpleasant and the prompt relief afforded is very welcome.
